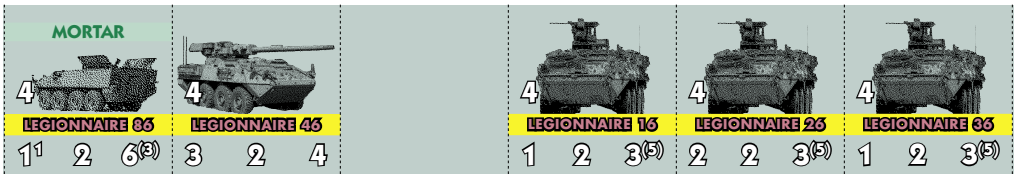
Corrected Counters

Striker Company flipped side counters

The Legionnaire Company counters had their reverse sides shifted. Here is a set of reverse sides to mount on the correct counters.

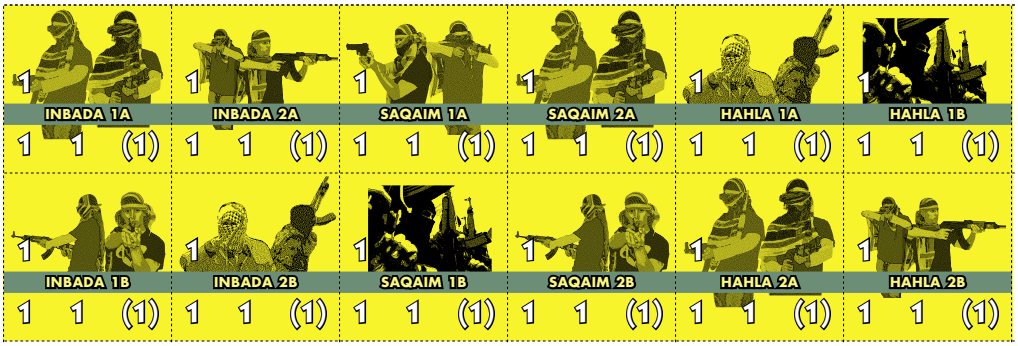


Recon Company corrected call signs

The Russian recon company had typos in their front-side call signs. Below are the corrected counters.

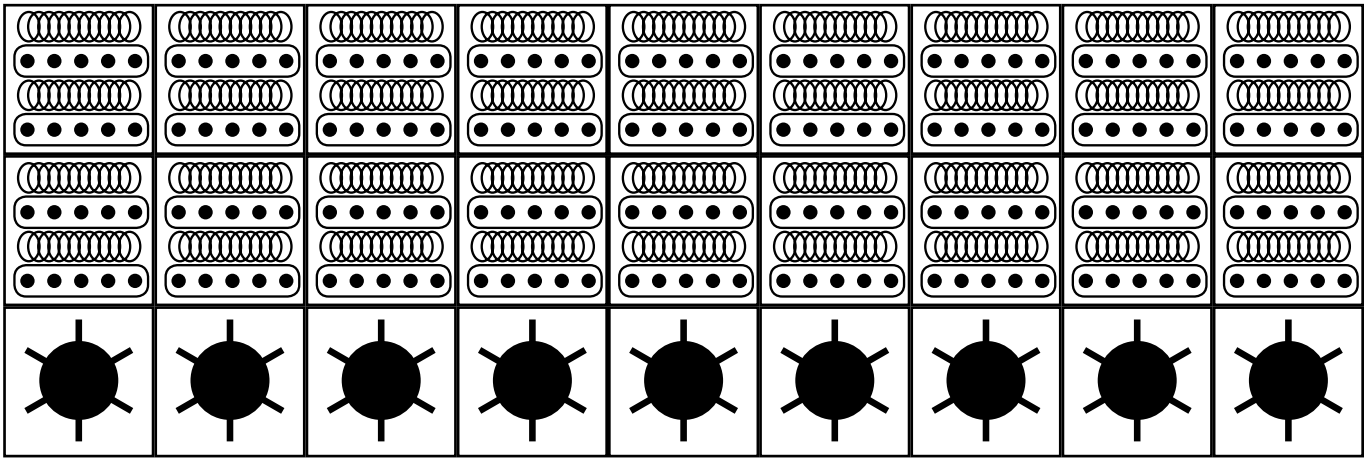
Arab Irregulars corrected ranges

The Arab Irregulars were all given 1-hex ranges, when they should've had 1-hex *visual* ranges. We also corrected a few of the unit names.



Israeli ATGM corrected combat factors

The Israeli ATGM unit was printed with normal infantry combat factors instead of the correct ATGM factors.

Wire & Mine and Single Point obstacles


For some inexplicable reason, we didn't print them on the sheet with the other admin markers. Thanks to Gregg for alerting us to this.
